WyzeStock

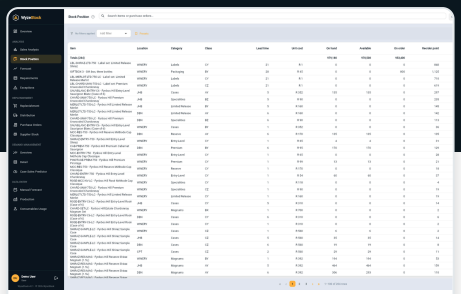

Works with any ERP

Hold less stock.
Run out less often.

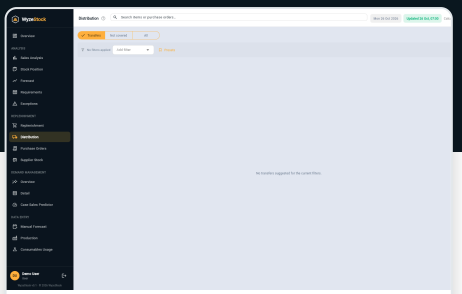

WyzeStock connects to your ERP and works out, for every item at every location, how much stock you should hold, what to order, what to move and what is tied up in excess. Seasonal forecasts, bills of material and a demand management report every morning are built in. No spreadsheets.

Overview: stock value against model stock, excess and stock-outs

Stock position: on hand, model stock, excess and shortfall per item

Distribution: transfers that cover shortages from stock you already own

Right
stock, right place

A target for every item, at every location

Model stock and safety stock from the forecast, the lead time and the service level each item deserves.

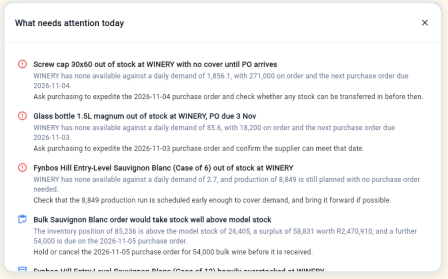

Stock position · Model stock · Safety stock · Exceptions · Replenishment · Purchase orders · Distribution · Seasonal forecasts · Bills of material · Demand management

OPTIONAL

AI Insights: ask why, and get a plain-English answer

WyzeStock calculates every figure itself. AI explains them in plain English, and every number in the answer is checked against your data.

- **Explain these figures:** why an item is short, in excess or slow moving.
- **What needs attention today:** ranked, each with a suggested next step.
- **Monthly commentary** for the demand meeting. Switched on per company.

What you get

- **Model stock and safety stock**
  Targets by ABC-XYZ class, so stock goes where it pays.
- **Replenishment**
  Orders per supplier, rounded to minimum order and pack.
- **Demand management report**
  Sales against forecast, emailed as Excel every morning.
- **Secure, role-based access**
  Per user and company. On desktop, tablet and phone.
- **Exceptions**
  Stock-outs, excess and slow movers, each valued at cost.
- **Distribution**
  Transfers between locations before anything new is bought.
- **Bills of material**
  Component demand worked out from finished-good sales.
- **Your data stays yours**
  Read-only from your ERP. We never change anything in it.

1 Connect to your ERP · **2 Sync twice a day**, at 07:00 and 14:00 · **3 Act** on today's lists
